

Microsoft Visual Studio Debug Console

```
-----  
Execute (Jira Server platform) REST API  
-----  
Ref : Goto : https://docs.atlassian.com/software/jira/docs/api/REST/8.13.2/  
pathname complet du fichier json ?  
par exemple : C:/C#Rest-API/Curl/Test4-Post/test.json  
C:/C#Rest-API/Execute-RestAPI-POST/Execute-Jira-RestAPI/create-issue.json  
pathname complet (URL) ?  
exemple : http://localhost:8080/rest/api/2/issue  
URIs for Jira's REST API  
http://localhost:8080/rest/api/2/issue  
user account in Jira for authentication  
-----  
Jira username ?
```

Jira password ?

```
{"id": "10300", "key": "TEST1-9", "self": "http://localhost:8080/rest/api/2/issue/10300"}  
C:/C#Rest-API/Execute-RestAPI-POST/Execute-Jira-RestAPI/bin/Debug/netcoreapp3.1/Execute-Jira-RestAPI.exe (process 4968)  
exited with code 0.  
To automatically close the console when debugging stops, enable Tools->Options->Debugging->Automatically close the console  
when debugging stops.  
Press any key to close this window . . .
```

Fichier .json :

```
{  
  "fields": {  
    "project": {  
      "key": "TEST1"  
    },  
    "summary": "REST ye merry gentlemen.",  
    "description": "Creating of an issue using project keys and issue type names using the REST API",  
    "issuetype": {  
      "name": "Bug"  
    }  
  }  
}
```

L'issue : TEST1-9 a été créée au niveau du projet : test-1 (key du projet : TEST1) , comme on le voit dans Jira :

The screenshot shows the Jira Software interface. At the top, there's a navigation bar with 'Jira Software' and several dropdown menus: 'Dashboards', 'Projects', 'Issues', 'Boards', and a 'Create' button. Below this, on the left, is a sidebar with a 'test-1' project icon and a list of options: 'Create board', 'Issues', 'Reports', and 'Releases'. The main area is titled 'Project settings' and has two tabs: 'Summary' and 'Details'. The 'Details' tab is active, showing the project's configuration. It includes a 'Name' field with the value 'test-1' and a 'Key' field with the value 'TEST1'. The 'Key' field is highlighted with a red rectangular box. There is also an information icon (i) next to the 'Key' field.
